GOOD NEWS.

We are glad to learn that the President is moving to effect a revision of the Burlingame treaty. The President has informed Congressman

Page that he had directed the Secretary of State to instruct Minister

Seward to officially call the attention

of the practical operations of the

Burlingame Treaty, with a view to

modifying it in accordance with the

suggestions of the resolution recently

adopted by the House. This order

of the President is the foundation

for negotiations to confine the

treaty to commercial purposes.

Secretary Fish is now in New

York, but Page intends to invite

his most earnest attention to

the matter upon his return. The

President has manifested great in-

terest in the subject, and, referring

to the recommendations of his annual

message for legislation to prevent

coolie importation, said his convic-

tions had since undergone no change

except to become strengthened.

JAMES D. WILLIAMS was Wednes-

day nominated for Governor by the

Democracy of Indiana. The con-

vention was one of the old fashioned,

riotous Democratic kind.

THE Central Pacific Railroad Com-

pany obtained a continuance until

July 10th in their case against Cohen.

The company evidently is not in a

hurry to collect that \$100,000.

TROUT culture has reached a high

state of perfection in Long Island.

Ponds varying from five to thirty

acres in extent are numerous.

PHILOSOPHER PICKETT has brought

a new suit against the Judges of the

Supreme Court of California for

\$100,000.

POLITICAL matters are beginning

to ferment a little in California.

ALREADY, when a Washington

belle is detected in any little sinful

game, she is said to be belle-sapping.

CURRENT TOPICS.

A *World's* Washington special says: A prominent Congressman says that Grant is determined, when summoned before the Investigating Committee, to tell everything he knows, regardless of consequences. Having no chance for renomination, he would rather sacrifice the party than himself. He claims to have made his appointments with honorable intent, but that he was deceived by friends. Some time ago the President mortgaged his house at Long Branch. Lately the mortgage was paid with money, the result of the sale of big bonanza mining stock, which Grant with extraordinary honor declined to retain after the passage of the Silver bill.A *Tribune* Washington special shows that in the contested election between Haraleon (colored) and Bromberg (white) there has been an extraordinary amount of perjury. It is a curious fact that Republican witnesses perjured themselves in behalf of Democrats. Several Democratic officers of the House of Representatives will be asked to resign for reasons discreditable to themselves. The Republicans ask, if these things are possible in three months what would be the result if the party controlled the nation.

The House Committee on Foreign Affairs has received evidence that Schenck received \$5,000 and some stock for services in getting a bill passed for the benefit of a Colorado immigration and land scheme. This was while Schenck was in the Ways and Means Committee. The proof is understood to be documents over Mr. Schenck's own signature.

The *Times* Washington calumnies lately set afloat against Bristow are entirely disposed of. A new story of his connection with the Texas Pacific Railroad, has lately been prepared, but it is false. The last of the week has been selected as the time of springing this sensation, but the authors may wait longer.

General Rufus Ingalls will prob-

ably be a candidate for court-martial

at an early day. He is charged with

being interested in a contract with

the War Department and misapply-

ing funds for payment under it.

Thus far these are the only allega-

tions. Don Piatt will be an impor-

tant witness in this case.

New charges of corruption against

Bristow, while District Attorney in

Kentucky, by having certain indict-

ments quashed, have turned up be-

fore the Committee on the Depart-

ment of Justice. Witnesses from

Louisville will probably be sum-

moned.

A new piece of rascality has come

to light between the Washington

District Investigation Committee.

Dis. Cox and Bliss, members of the

Board of Health, are charged with

receiving \$10,000 for awarding con-

tracts to a certain excavating company.

The last dispatches between Eng-

land and America show that extra-

dition is a dead letter. The treaty may

be considered abrogated. Great

Britain's position is regarded as sim-

ilar as it is untenable.

The Texas Pacific Railroad has

agreed to carry all Mexican Veterans

free to the Centennial, and an effort

is being made to induce the Central

Pacific to follow their example.

In a recent paper published by

Prof. Merriman, a scientific gent,

the conclusion is arrived at that in

10,000 years more, or thereabouts,

the water on the earth's surface will

shift positions, with respect to the

north and south poles, to such an ex-

tent that the sea will cover London

250 and New York city 200 feet deep.

The Professor appears to be very fa-

miliar with the momentous subject,

and his conclusions seem reasonable

enough. In case this change of

scene comes about, new lands will

arise south of the equator, and

instead of the preponderance of land

to the north of that line as at present,

Europe will almost disappear, and

much of Asia and North America

cease to be visible above the surface

of the sea. As the time for this

change is 10,000 years off, we can

talk about it calmly and safely.

WOMEN are allowed to vote in

Wyoming but they are indifferent as

to who or what they vote for. At a

recent local election there a fellow

running for town clerk bribed eighteen

female voters with a pound of

chewing gum.

THE recent census gives these fig-

ures:—New York, 1,000,000; Phila-

delphia, 800,000; Brooklyn, 507,000;

St. Louis, 450,000; Chicago, 410,000;

Boston, 340,000; San Francisco,

250,000.

TROUT culture has reached a high

state of perfection in Long Island.

Ponds varying from five to thirty

acres in extent are numerous.

PHILOSOPHER PICKETT has brought

a new suit against the Judges of the

Supreme Court of California for

\$100,000.

POLITICAL matters are beginning

to ferment a little in California.

belle is detected in any little sinful

game, she is said to be belle-sapping.

STATE NEWS.

The Teachers' Convention will be held some time during the first part of next month in Virginia.

At present there are less than 100,000 trade dollars in Storey county, and it is expected that they will before long be at a premium.

A delegate will be sent from Washoe Typographical Union to the International Typographical Union, the next session of which will be held in Philadelphia, July 3d, 1876. The delegate will be elected at the next meeting of the Union.

Mr. C. C. Stephenson, Chairman of the Nevada Centennial Commissioners, has secured as a contribution from the Cast Steel Shoe and Die Company, of Frisco a set of five steel shoes and dies for the quartz mill that will be erected at the Centennial.

The State of Nevada has exhausted her right under the several grants to select or sell any more land, excepting School Sections 16 and 36. The only modes now left for persons desiring to enter public land are by pre-empting or homesteading.

The Society of Pacific Coast Pioneers in the State of Nevada includes people who were on the Pacific Coast prior to January 1st, 1851. The society now numbers 273 members. Since the organization, in 1872, twenty-eight have been stricken from the roll, eight have died and two have resigned.

The Consolidated Virginia, California, Ophir and Belcher mines have each 200 sacks of good average ore sacked, ready for shipment to the Centennial Exhibition at Philadelphia. The Gold Hill News says these sacks of ore will weigh from 100 to 110 pounds each, and the ore is intended for crushing in the quartz mill now being erected at the exhibition grounds by the Commissioners of this State.

Thousands of people who visit the exhibition will now have a chance to see what they have never before beheld—a small sample of the rich silver ores of the Comstock.

The whole will amount to nearly twenty tons.

ANOTHER OUTRAGE.

Wednesday night, at about half past nine, as a man, name unknown, was passing near Mrs. Beck's lodging house, he was confronted by a highwayman who with pistol in hand, demanded his money. The man showed fight when he was knocked down by the highwayman striking him over the head with the pistol. Not content with this he continued to beat him after he was down, inflicting many severe wounds about the head. The poor fellow yelled lustily for help and succeeded in attracting the attention of some men, who drove the rascal off. The injured man was taken to the County Hospital, where he now is. Yesterday large quantities of blood was seen on the spot which showed that he must have bled considerably. A two-bit piece was picked up near there. The ruffian is still at large.

THE NEW TRAIN.

Better Railroad Communication—The New Train
—The Time Table—May 1st the Time for
Starting.

The JOURNAL was the first to announce that arrangements were in progress looking to better railroad facilities between Western Nevada and San Francisco. Lately other papers have published the information that the want long felt is about to be supplied, but all of them have made some mistakes. The purpose of this article is to correct those mistakes, and give the latest news about the new train:

In the first place let it be understood that this new arrangement in no manner changes the time or runs in conjunction with the present overland express trains of the Central Pacific. They will continue to run as heretofore. Those trains at present are heavy and cumbersome, and during the Centennial, will be much more so. While the object of the new train is to accommodate the people, it is also to relieve the overland trains of some of their burdens.

Now as to the time. The train will leave Virginia for San Francisco at 6:30 P.M. arriving in Reno at 9:25, here connecting with the Central Pacific which will leave Reno at 9:30, thus allowing fifteen minutes for transfer, etc., there being a difference of ten minutes between the C.P. and V. & T. time. The train will arrive in San Francisco next morning at 10:35.

Returning will leave San Francisco at 4 P.M.; arrive in Reno the following morning at 5:55; leave Reno at 6:10 and arrive in Virginia at 9:30.

A sleeping car will be run through on every train.

Baggage cars will be run through. Twenty miles an hour will be the average speed.

Way mails and express will go on the regular overland. Through mails will be carried on the new train.

The V. & T. also propose to run the local trains between Carson and Virginia at a greater rate of speed, making the trip in one and a half hours. They now take two and a quarter.

They also propose to run five more trains on their road, which will make twenty-six daily.

WOOD OPERATIONS.—The Eldorado Flume Company have a force of seventy men at work getting out wood in White's Canyon. A flume eight miles in length extends from this canyon to Brown's station on the V. & T. R.R., to which place the wood is flumed. About 20,000 cords will be taken out during the season.

This Company have also contracted for 30,000 cords, to be delivered at Washoe. Pete Marker is the contractor.

All the wood around Franktown will be cleaned up this year, and in another year there will be none left in the mountains west of Washoe or in White's canyon. The Co. will then tackle Hope Valley, at the head of the west branch of the Carson river. They will also operate on the west side of Lake Tahoe. Yerington, Bliss & Co. have all the timber land on the east side of the lake. It will require ten years to cut up the forests around the lake.

LEGS CUT OFF.—An Indian fell from the V. & T. train day before yesterday near the Mound House while the train was in motion, and both of his legs were cut off. He was taken charge of by the railroad company. It is a wonder to us that more are not seriously injured, for they climb all around the cars. They seem to lead charmed lives.

WOODEN WEDDING.—Mr. and Mrs. Frank Osbiston, well and favorably known in Reno, will celebrate the fifth anniversary of their wedding, Wednesday evening, April 26th, at their residence in Virginia City. The invitations sent out to their friends to be present on the occasion are handsomely printed on California laurel.

ROVER CONVICTED.—The second trial of J. W. Rover for the murder of I. N. Sharp, at the Rabbit Hole sulphur mine a year ago, terminated yesterday at Winnemucca. The jury brought in a verdict of murder in the first degree. Mr. Rover will soon rove-r the dark valley of the shadow of death.

ALL members of Haswell Lodge, I. O. G. T., are desired to attend the meeting to-night.

SPECIAL NOTICE.

MR. PRESCOTT, the leading dry goods merchant of this place, has returned from the city, and we must admit his importations of Spring and Summer dry goods excel anything that has ever been brought to this town, either in quality, quantity, style or price. He informs us that goods are low and at such figures only will he dispose of them. Mr. Prescott has had twenty-five years' experience in the business and during all that time he has been known to deal fairly with all, and such are his intentions for the future, so ladies, if you intend to buy goods this season his is the establishment, and all are cordially invited to call.

WAR TO THE KNIFE.—Grey & Isaacs' Centennial Dry Good Store on Virginia street has now begun a wholesale slaughter in right earnest, giving 16 yards best calicoes manufactured for \$1. Celebrated Lousdale muslin, 12½ cents per yard; celebrated Mt. Rock, 12½ cents per yard; Canton flannel, 12½ cents per yard; French corsets worth \$2 for 50 cents, and all other goods in proportion. Call and be convinced.

TRANSACT A GENERAL BANKING BUSINESS—Currency, Eastern and Foreign exchanged bought and sold. Highest market price paid for County Scrip. Railroad tickets from the East to the West end to Eastern Cities procured on short notice. Collections promptly attended to.
